

Bethanna's TFC Program ranked # 2 by Philadelphia DHS

During FY 2011, Philadelphia Department of Human Services (DHS) evaluated 15 Treatment Foster Care (TFC) providers who operated under a model of service developed by the Foster Family-based Treatment Association (FFTA). Performance was measured relative to five domains:

- 1) Permanency outcomes
- 2) Step-down outcomes
- 3) Current annual evaluation scores
- 4) Success in maintaining least restrictive level of care
- 5) Monthly visitation compliance.

The ranking was intended only to describe their current performance relative to one another to foster awareness and collaboration in promoting outcomes that are even more positive. Bethanna was ranked second among current providers by DHS. For more information about TFC [click here](#).
